Libby,
I was able to do some testing on the Flock Advanced Search features for Convoy Search and Multi Geo Search.

If your Product Team wants to meet up, I'm available March 14th and 15th from 7 AM- 5 PM, but you need to let me know so I don't schedule something else.

Convoy Search:
Good news, the search completed without the Internal Server error. So that's fixed.
We drove two cars past seven different cameras across the city during a 10 minute time period. The convoy search worked…but there were 199 search results (which is a lot). The results did show the two vehicles involved.
I found if I downloaded the .csv results and used a formula to identify the unique plates and the number of times those plates appeared it was clear our two cars appeared with the most frequently (46 times and 12 times)

I suggested it in the past, but I'll suggest it again, if you could add some filters to the convoy search (ie Camera selection or date/time) you could really reduce the number of hits.
Also, if you could include a formula in the spreadsheet to automatically show the number of occurrences of each unique plate, that would be helpful.

Bad news, for some reason the spreadsheet did not like the plate "26966E2" and did not display it properly. Even when I changed the format to General or to Text, it changed it to "2696600" (see screen captures below and attached)

	A	B	C	D
1	Plate	Capture Time	Capture Networ	Capture Camera
2	1591731	February 17, 2023 at 5:38:15 AM PST	Santa Maria CA PD	116 WB Betteravia (east of Broadway-Lane 1 and 2)
3	1591731	February 16, 2023 at 8:14:07 AM PST	Santa Maria CA PD	073 NB Blosser (south of Carmen)
4	2.70E+06	February 21, 2023 at 5:02:57 PM PST	Santa Maria CA PD	039 EB Betteravia (west of Centerpointe)
5	2.70E+06	February 21, 2023 at 5:02:57 PM PST	Santa Maria CA PD	039 EB Betteravia (west of Centerpointe)
6	2.70E+06	February 21, 2023 at 5:00:27 PM PST	Santa Maria CA PD	037 EB Betteravia (west of Broadway)

Multi-Geo search:
I conducted two Multi-Geo searches, one using two cameras and one using three cameras. Both worked very well finding the two vehicles we used.
Thank you.

Libby,
I've not had a chance to test it out recently, but I'll do so before March.
I'll be available March 14th and 15th from 7 AM- 5 PM (nothing currently scheduled)
Let me know what time would be good.

Okay, sounds good!

Hi Detective Best, please see my email below with additional details and let me know if this is something you are interested in. And if so, your availability.

Thank you!

> Hi Commander Cohen,

I hope all is well. A while back you and I spoke about the issues you were having with Advanced Search and you mentioned that you'd be open to providing us feedback to help us improve it...so with that, I've got a great opportunity that I am hoping you are available to participate in.

Our Product team is hoping to meet, in person, with a few agencies that are willing to provide feedback on Advanced Search sometime between March 13th and 15th. They will come to you and I am thinking it'll take less than an hour.

Are you interested? If so, can you let me know what your availability is sometime between those dates?

Thank you!
